

COVID 19 and Scholars in Collars programs – MAR 18, 2020

COVID UPDATE, out of an abundance of caution and recent developments
We will be closing until April 3rd inclusive.

- Our program is unique in that we have an online component so if there is a closure during the program the students can continue with their critical owner education and train at home until classes resume. The classes would simply resume where they left off with no weeks omitted.
- Again, with our online component, students still get to keep up with their owner education and training their dog even if class attendance is delayed or missed because they cannot come (this happens with sick dogs and people in even regular times when there is no pandemic).
- If the program is running and you have to miss due to Covid illness or self-isolation, do not worry, we will work on solutions to ensure that you and your dog have options to salvage the course.
- However, if you are truly not comfortable going into a group setting at this time, you can register for just our online program to prevent a delay in critical owner education and training. The fee for that is \$219 including tax and the full fee can be used as a credit toward a Level 1 in class spot when you eventually register for the class. This online program is provided free for Level 1 registrants. It covers Behavior, Socialization and Level 1 obedience with written and video resources professionally filmed in a professional format.
- Here is a link to the online program to check it out and register if you decide you prefer to go this way.
- <https://scholarsincollars.online/p/level-one-obedience>
- Please still check out our website for full program description.

Any questions or concerns, please do not hesitate.

Thanks so much

Diane McWhinnie

Owner/Head Trainer

Scholars in Collars Dog Training Inc.
