

SCHOLARS IN COLLARS DOG TRAINING COVID PROTOCOLS – JULY 2022

Questions/concerns, reach out to us anytime dmcwoof@gmail.com

COVID PROTOCOLS (MAY CHANGE or UPDATE)

- **3 PEOPLE/DOG** – One consistent Adult (same one) every week. Additional household family members can rotate. Only those pre-cleared for vaccines and on the admittance list will be allowed. Additions require 48 hrs lead time with submission of vaccines to Diane. Capacity can be reduced at anytime depending on Public Health recommendations.
- **SYMPTOMS (including Stomach)** – If symptomatic or in contact with symptoms at home, as per Public Health, 5 day isolation, 24hrs clear if respiratory, 48 hrs clear if Stomach.
- **TRAVEL** – No Admittance if you have been on a plane in the last 5 days (domestic/international)
- **VACCINES** – All attendees and Staff are verified as double vax + 14 days with the majority being triple.
- **MASKS** – All students and staff are required to wear a medical mask (disposable or N95), if you forget, we have some, but if we provide one please keep in your car for future classes. NOTE: Some head trainers may lower their mask when head instructing when the class is not moving around (20 feet distance) due to medical breathing issues when projecting their voice and also so you can hear them better. We are still masking due to the recent wave and also dog training is often talking to you and you to us for much longer than a few seconds as well as the longer time in the space for a class. It is not the same as a retail setting.
- **SCREENING** – We still have active screening in place, it may occur as you enter or as a group at the beginning of a class.
- **DISTANCING** – Our stations are 10 feet apart minimum and we ask that everyone continue to be diligent about distancing.
- **CLEANING** – We clean all touch surfaces regularly and any equipment loaned is washed between every use. Hand sanitizer is provided at each training station and upon entry.
- **MISSING CLASS DUE TO COVID:** if the one week, no worries your online component allows you to take/train a lesson at home, if more than one we work on solutions on a case by case basis.

THANK YOU – To date, we have not had a Covid transmission from Scholars and only two staff illnesses from their kids from schools. We are very proud that we have done everything possible to protect our staff and students and appreciate all the student support and cooperation.
